Press Release – IP Connected Buildings Division Enhances Team

Glasgow, Scotland, January 2008 – Boston Networks Ltd has appointed Tony McGuire as Technical Manager of its IP Connected Buildings Division.

Commenting on his appointment, Boston Networks Ltd Operations Director, Scott McEwan, said “Tony has a breadth of experience in IP networks and related fields having successfully operated his own business for some years. His technical knowledge coupled with his vision for migrating building control and monitoring systems onto an IP network marries perfectly with our business model and further allows us to provide an unrivalled service to our customers.”

IP Connected Buildings allow our customers to run multiple, previously disparate, systems on a common integrated network reducing installation time, cost of deployment and significantly reduced total cost of ownership.

With this recent appointment we are better able to meet the needs of our IP buildings customers, who often require in-person consultation, on-site demonstrations and seminars, and a hands-on approach in this new and exciting field.

The IP Connected Building division operates out of the company's new headquarters facility at 8 Carberry Court, Queen Elizabeth Avenue, Hillington Park, Glasgow G52 4NQ.

Tony McGuire can be contacted on tony.mcguire@bostonnetworks.co.uk
