 MONITOR AUDIO

Pro-IC series

Sharing the technical and acoustic design knowhow of our world-famous hi-fi speaker ranges, Monitor Audio's custom installation speakers take our award-winning sound into new areas of the home. Unlike many purely custom brands, Monitor Audio can draw upon a record of consistent success in exceeding the demands of the world's most critical audiophile listeners.

Our proven technologies and design expertise have been applied to reconcile the desire for bigger, better sound with the need for smaller, more discreet speakers. Monitor Audio's in-wall and in-ceiling designs are amongst the most sophisticated available, delivering very high performance, reliability and ease-of-use in the widest range of locations, and dovetailing beautifully with our hi-fi ranges for the seamless transfer of music and movie sound within and between every room in the home.
